Multicat by Bay-lynx **Series**

Bay-Lynx
Multicat
SPREADER

SAVE TIME AND MONEY WITH YOUR MULTICAT SPREADER
One Operator can unload and spread material in difficult, 'hard to reach' areas
SPREADS TOP SOIL, MULCH, STONE & SAND

USED BY QUARRY OPERATORS, HAULERS, LANDSCAPERS, CONTRACTORS

Bay-lynx Mfg. is proud to be known as leaders of quality and innovation in the Spreader Industry. From ridged box construction, and the patented Load Suspension Beam (which allows you to evenly spread material that would normally bridge or hang up in conventional machines), to the options of full radio remote spreader and chassis, the Multicat Spreader by Bay-lynx is your industry leader. Used by Quarry Operators, Haulers, Landscapers, Contractors, all across North America, to spread multiple products, up to 100 ft. from rear bumper, in hard to access areas such as: Basements, Tile Beds, Backfilling, Curbs, Utility Trenches, and many more applications.

Bay-Lynx

Multicat
 SPREADER

Features

- Large Chute Opening with Load Suspension Beam
