

MirroCraft

TROLLER EXP

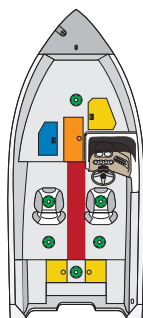

The Troller series gains a new 85" wide 16' model, the 1686 tiller. Along with its' sister craft, the 1685, they continue to cover the performance and value equation. Both of these fine boats offer a long list of standard fishing features that would make any serious fisherman happy. Both models offer great performing V hulls with molded-in spray rails for a dry ride and truly great handling. When powered with midrange powered outboards they offer impressive performance and handling. These wide bodied craft are probably the best overall values in fishing boats on the market.
