Level the field with the Frontier Drawn Box Scraper

LL11 and LL13 Series

SELECT THE RIGHT MODEL

Performance shouldn't be an option – it's mandatory. **With the Frontier Drawn Box Scrapers, you get high-performance and quality results for your landscaping jobs and leveling jobs.** Whether you're moving soil, prepping yards for seeding, or simply leveling fields or driveways – you can count on the Drawn Box Scrapers to perform multiple tasks, quickly and effortlessly.

The LL11 Series Drawn Box Scrapers easily break through hard ground to handle a wide range of common leveling and grading chores. From simple leveling around the home, to clearing land for building houses and other contractor work. Equipped with four or six standard scarifier shanks, the LL11 Series make backfilling holes and shaping landscape simpler.

For more rugged jobs, choose the sturdy **LL13 Series Drawn Box Scrapers.** Designed for even tougher chores, the LL13 Series is built to withstand the higher draft loads when penetrating hard, compacted soils. Maintain roads, level out fields, or add in drainage ditches – the LL13 Series are ideal for farmers or operators with bigger applications to tackle.

The Frontier Drawn Box Scrapers also offer the convenience of a hydraulic depth control, allowing you to fine-tune working depth from your operator seat, so that you spend more time in your tractor actually working. The LL Series also features a drawn hitch to eliminate washboard effect caused by traditional 3-point box blades. Along with sturdy 6-inch x 5/8-inch thick grading blade cutting edges and replaceable shanks, the durable Frontier Drawn Box Scrapers give you high performance when the job calls for it.

John Deere, the most trusted name in farm, ranch and lawn equipment, sells and supports the Frontier Drawn Box Scrapers. To help you choose the right Frontier Drawn Box Scraper, talk to your local John Deere dealer, your exclusive source of Frontier Equipment.

For small utility tractors from 20 to 50 horsepower, the LL11 Series Drawn Box Scrapers are available in two economical sizes: 5-foot LL1160 and 6-foot LL1172.

The LL13 Series Drawn Box Scrapers are compatible with tractors from 35 to 125 horsepower. These rugged tools are offered in three versatile sizes: the 6-foot LL1372, 7-foot LL1384, and 8-foot LL1396.

your tougher jobs conditions.

ATTACHMENTS DESIGNED TO MATCH YOUR APPLICATION

Match the right attachment to the job. You have a choice of six optional attachments for the LL13 Series including the Spring Tine Harrow, the Smooth Drum Roller, the Hydraulic Scarifier, and the Single and Double Rolling Pulverizer Baskets. These heavy-duty attachments are perfect for compacting loose soil, smoothing roads, or handling just about any landscaping chore.

SPRING TINE HARROW

Use the Spring Tine Harrow to help break up clods and level the ground prior to seeding.

HYDRAULIC SCARIFIER

Get greater productivity using the Hydraulic Scarifier along with any one of the other attachments. This heavy-duty tool does it all – from ripping up hard ground to shattering soil compaction.

SERRATED GRADER BLADE

Tear through hard ground faster with the Serrated Grader Blade. Equipped with a row of rugged, sharp teeth to penetrate tough soil conditions. (*Serrated grader blade available through John Deere Parts only.*)

SMOOTH DRUM ROLLER

The job isn't complete without the Smooth Drum Roller. Designed to pack and compress loose soil while providing a leveled surface for landscaping.

ROLLING PULVERIZER BASKETS

Single

8" Double

12" Double

Keep costs down while still successfully breaking up dirt clods with the Single Basket attachment. And for greater soil separation, choose the 8-inch Double Basket or the 12-inch Double Basket to cover more terrain.

Frontier Drawn Box Scraper

Built to tackle the toughest jobs.
