AVERTISSEMENT
Risque d'incendie. Un matériel peut produire des étincelles et démettre des feux de broussailles. Un pare-étincelles peut s'avérer nécessaire. Contactez les organismes locaux ou fédéraux, comme les municipalités pour obtenir les réglementations concernant les exigences de prévention incendie.

0020

WARNING
 Guard or entire grass catcher must be installed before operating mower.

AVERTISSEMENT
 La protection ou le sac de ramassage doivent être installés avant de démarrer la tondeuse.

LOCATED ON DECK
 NEAR DISCHARGE
 OPENING

DANGER
 Do not touch the blade when the engine is running.

0030

WARNING
Fire Hazard. Operation of this equipment may create sparks that can start fires around dry vegetation. A spark arrester must be installed. The operator of such equipment should be advised of such requirements.

0080

AVERTISSEMENT
RISQUE D'AMPUTATION ET D'OBJETS PROJÉTÉS
 Les parties mobiles de cet équipement peuvent causer des blessures graves ou la mort. Les utilisateurs doivent être conscients des dangers de cet équipement et des exigences de sécurité. Les utilisateurs doivent être conscients des dangers de cet équipement et des exigences de sécurité.

The guides and ruler furnished below are designed to help you select the appropriate hardware.

Nut, M8

Thread Diameter (mm)

Inside Diameter (in) Threads per inch

Nut, 1/2-16

Screw, M8- 1.25 x 25

Thread Diameter (mm) Distance between threads (mm) Body Length (mm)

Body Diameter Threads per inch Body Length (in)

Screw, 1/2- 16 x 2

Standard Hardware Sizing

When a washer or nut is identified as 1/2" (M8), this is the *Nominal size*, meaning the *inside diameter* is 1/2 inch (8mm metric thread diameter); if a second number is present it represents the *threads per inch* (distance between threads).

When bolt or capscrew is identified as 1/2 - 16 x 2" (M8 - 1.25 x 50), this means the *Nominal size*, or body diameter is 1/2 inch (8mm metric thread diameter), the second number, 16, represents the *threads per inch*, (*distance between threads*). The final number is the body length of the bolt or screw, 2 inches (50mm).

NOTES

- These torque values are to be used for all hardware excluding: locknuts, self-tapping screws, thread forming screws, sheet metal screws and socket head setscrews.
- Recommended seating torque values for locknuts:
 - for prevailing torque locknuts - use 65% of grade 5 torques.
 - for flange whizlock nuts and screws - use 135% of grade 5 torques.
- Unless otherwise noted on assembly drawings, all torque values must meet this specification.

Common Hardware Types

Hex Head Capscrew

Washer

Carriage Bolt

Hex Nut
