

Features & Benefits

Sugar Beet Special

The new YP44 from Great Plains is designed for the sugar beet grower who demands a highly accurate planter that has bulk capacity with row units spaced at 22" on center. The YP44 not only surpasses the requirements for sugar beets but will also

plant corn, soybeans, edible beans, and much more! The Air-Pro® Air Metering System and Clear-Shot® Seed Tubes provide unsurpassed seed spacing. Large bulk tanks and unmatched flotation add to its productivity and function.

22" ROW UNIT SPACING - Row units are spaced at 22" on center, allowing sugar beet farmers a new level of accuracy and bulk capacity not found anywhere else.

SUPERIOR FLEX - Designed to flex in the field up to 20 degrees up and 20 degrees down. Couple that with a floating hitch and this unit can handle even the toughest terrain with ease.

FLOTATION TIRES - Ten 15 x 16.5 skid steer tires provide 2,300 square inches of flotation with a 3" sink; only 9-11 psi, depending on opener choice and row spacing.

SEED WHEELS - For a wide variety of seeds, including sugar beets, corn, soybeans, edible beans, and others.
