

FOUR WHEEL DRIVE TRACTOR MODELS

A FARMER'S BEST FRIEND

Take control of your material handling and increase the productivity of your four wheel drive tractor with the Pitbull dozer blade. Designed to move the most material in every pass, the Pitbull blade offers the operator the ultimate maneuverability with available 8-way blade control. The blades' easy, quick attach and most compact mounting system available make Pitbull the top dog for silage, dirt and snow applications.

To increase functionality, Pitbull features easy hydraulics connection, ratchet-style adjustable skid shoes and a convenient support leg that folds up while the blade is in use. Built using T1 grade steel with AR400 wear points, Pitbull blades are made in Canada and come with a 2-Year Warranty. Pitbull blades for four wheel drive tractors are available in models designed for 300-600HP category and 400-600HP category tractors.

HUB

- No bulky lift assembly
- Hydraulic quick attach
- High ground clearance

HITCHLESS UNDERMOUNT BRACKET

Pitbull gives operators the most advanced blade in the market, featuring our exclusive HUB design, the industry's only parallel lift blade and hitchless undermount bracket.

The HUB is Pitbull's answer to completely eliminating a bulky and awkward lifting assembly permanently mounted to the nose of the tractor. The HUB's slim design also provides impressive ground clearance at nearly factory specification.

ALL-WHEEL STEERING TRACTOR UNDERMOUNT

Unleash your tractor's versatility with Pitbull's All-Wheel Steering Tractor Undermount system.

Pitbull's unique Undermount system for All-Wheel Steering tractors offers a new breed of dozer blade performance. When removing the blade, the lift assembly tucks tightly against the nose of your tractor for clear sightlines and easy road travel. The full undermount disconnect is also a simple process, with only a few coupling brackets remaining as your tractor is restored to near original ground clearance.

8-WAY BLADE CONTROL

Take command and control on each pass, putting silage, dirt and snow exactly where you want it with Pitbull's available 8-way blade control, including parallel lift and forward pitch.

PARALLEL LIFT

Lift high and straight using Pitbull's parallel lift design. Parallel lift keeps the blade facing the load, maintaining edge control and rolling material forward.

FORWARD PITCH

Gain greater edge precision with forward pitch control, tipping the blade forward for greater edge pressure and improved back dragging.

30° SIDE ANGLE

Move material side-to-side with the pushing strength of Pitbull's heavy-duty hydraulic cylinders for angling.

10° TILT ANGLE

Easily shape the pile or reach low with hydraulic tilting control.

OPTIONS

- 1 Grill Extension (Opt.):** Push more material without sacrificing your visual sight-lines with a bolt-on height extension for the mouldboard.
- 2 LED Lights (Opt.):** Don't let darkness get in the way with a compatible LED light system for the Grill Extension.
- 3 Bolt-on Extensions (Opt.):** Maximize each pass with 12 inch bolt-on extensions, extending the blade an extra 24 inches.
- 4 Bolt-on End Plates (Opt.):** High Volume End Plates improve load control and carrying ability.
- 5 High Volume Silage End Plates (Opt.):** High Volume Silage End Plates prevents the plates from bottoming out when piling.

FEATURES

ADJUSTABLE SKID SHOES

Raise and lower the heavy plate skid shoes to the perfect height using the ratchet style adjustment.

GROUND CLEARANCE

Pitbull blades allow for maximum ground clearance. Actual clearance may vary based on tractor models.

EASY HYDRAULICS CONNECTION

Connect all hydraulic hoses at one time with the simple lever that makes hook up hassle-free.

MITERED ENDS

For precision dozing flush against walls when the blade is angled.

FOLDING LEG

Easily fold up the support leg with a single pin while the blade is in use.

MODEL SPECIFICATIONS

FWD 3060 HP Range 300-600

Mould Board Height	48"
Lift Height*	48"

4-Way FWD3060 Series

Model	Width	Weight**
FWD30604W12	12' Blade	8007 lbs
FWD30604W14	14' Blade	8200 lbs
FWD30604W16	16' Blade	8395 lbs
FWD30604W18	18' Blade	8592 lbs
FWD30604W20	20' Blade	8786 lbs

8-Way FWD3060 Series

Model	Width	Weight**
FWD30608W12	12' Blade	8454 lbs
FWD30608W14	14' Blade	8647 lbs
FWD30608W16	16' Blade	8842 lbs
FWD30608W18	18' Blade	9039 lbs
FWD30608W20	20' Blade	9233 lbs

FWD 4060 HD HP Range 400-600

Mould Board Height	48"
Lift Height*	48"

4-Way FWD4060HD Series

Model	Width	Weight**
FWD4060HD4W14	14' Blade	9348 lbs
FWD4060HD4W16	16' Blade	9623 lbs
FWD4060HD4W18	18' Blade	9899 lbs
FWD4060HD4W20	20' Blade	10176 lbs

8-Way FWD4060HD Series

Model	Width	Weight**
FWD4060HD8W14	14' Blade	9814 lbs
FWD4060HD8W16	16' Blade	10089 lbs
FWD4060HD8W18	18' Blade	10365 lbs
FWD4060HD8W20	20' Blade	10642 lbs

*Lift height may vary depending on tractor model

**Weight includes silage extension and undermount

Pitbull warrants to the original purchaser all products to be free from defects in material and workmanship for a period of two (2) years from the date of purchase.
