

372 XP® G

A true professional saw in the larger mid-size class, built for very demanding applications. The crankcase and crankshaft are extra heavy-duty and the carburettor has vibration damping in order to handle high speeds and high loads. The saw combines low weight, high power and rapid acceleration with flexible operation. The XP® G model has both heated handles and carburettor.

AIR INJECTION

Centrifugal air cleaning system for reduced wear and longer operating time between filter cleanings.

QUICK-RELEASE AIR FILTER

Facilitates cleaning and replacement of the air filter.

QUICK RELEASE AIR FILTER COVER

Quick release cover saves time when cleaning or changing spark plug.

SMART START®

The engine and starter have been designed so the machine starts quickly with minimum effort. Resistance in the starter cord is reduced by up to 40%.
