

TA 36

A robust, extremely solid tow-behind aerator for extended periods of professional use. The TA36 allows efficient aeration of large lawns, with a productivity of up to 10,000 sq. m. per hour. Because the hollow tines are independent of each other, it's possible to make sharp turns without damaging the grass. An ideal professional product for contractors, local government, sports facilities as well as the rental business.

INDEPENDENT TINE ROTORS

Two independent tine rotors with 32 interchangeable closed spoon tines provide superior manoeuvrability around corners and in tight areas.

DETACHABLE WEIGHTS

Optional weight containers ensure optimal soil penetration.

SIDE WHEELS

Unique side wheels allow the aerator to be handily stored on its side or be moved through tight passages.

ROBUST DESIGN

Robust design for demanding, professional use.

Features

- Sealed bearings provide reliability
- Commercial components ensure years of use

Technical data

Aerating pattern	4.4x6 inch / 112x152 mm
Working depth	3" / 7.6 cm
Aerating width	36 inch / 92 cm
Working depth adjustment	Crank
Number of tines	40
Free-wheel design	Yes
Detachable weights	5 containers 86-210 kg
Tyre size, rear	3x10 inch
Base machine, length	58.66 inch / 149 cm
Base machine, width	55.91 inch / 142 cm
Base machine, height	37.01 inch / 94 cm
Weight	190 lbs / 86 kg
