

**BUSH HOG®**  
Performance You Can Count On™

## Rear Mounted Blades

### **We can help you out of a tough scrape!**

If you need a tool for landscaping, snow removal, feed lot work, ditching, terracing, dam building, road reconditioning, or general farm maintenance, a Bush Hog® Rear Mounted Blade is always the answer. Bush Hog® offers models ranging from light duty to heavy duty in a variety of widths, all engineered and built to provide years of service under demanding conditions at a very reasonable price. So if you find yourself facing a tough scrape, turn to Bush Hog® for performance you can count on!

# **BUSH HOG®**

## **REAR MOUNTED BLADES**

Whether you're a homeowner, farmer, landscaper, or contractor, Bush Hog® has a blade for every job and every level of duty.

### **COMPACT REAR BLADE (CRB)**

Bush Hog's compact rear blades are the ideal choice for light duty landscaping, driveway maintenance, or snow removal. These light duty blades are rated for use on two-wheel drive tractors up to 24 PTO horsepower and four-wheel drive tractors up to 15 PTO horsepower. The moldboard may be reversed for backfilling and angled left or right for use in a wide variety of applications. Tilting of the blade is achieved by adjustment of the tractor's 3-point hitch arms.

**Available in 4, 5, and 6-foot operating widths.**

### **35 SERIES BLADE**

Whether you are a budget-minded landscape contractor considering a blade for your jobsite, or a homeowner interested in landscaping or snow removal, the 35 Series has what you're looking for. These utility blades are rated for use on two-wheel drive tractors up to 35 PTO horsepower and four-wheel drive tractors up to 30 PTO horsepower and feature tilt, angle, and offset adjustments in both forward and reverse positions.

**Available in 4, 5, 6, and 7-foot operating widths.**

### **50 SERIES BLADE**

Ideal for jobsites, landscaping, and homeowners, the 50 Series is the preferred choice for those who need a 50 PTO horsepower rated blade with the features and capabilities of a much heavier unit. Rated for a maximum of 50 HP 2WD or 40 HP 4WD, the 50 Series blades feature tilt, angle, and offset adjustments in both forward and reverse positions.

**Available in 6 and 7-foot operating widths.**

### **70 SERIES BLADE**

The medium-duty 70 Series Blades are designed for landscaping, road maintenance, and snow removal. These blades feature a heavy duty mainframe and high-strength, reinforced moldboards to ensure years of trouble-free performance. The 70 Series Blades are rated for use on two-wheel drive tractors up to 70 PTO horsepower and four-wheel drive tractors up to 55 PTO horsepower. These blades feature tilt, angle and offset adjustments in both forward and reverse positions.

**Available in 6, 7, and 8-foot operating widths.**

## 91 SERIES BLADE

**Available in 7 and 8-foot operating widths.**

The rugged construction of the 91 Series Rear Blades make them ideal for a wide variety of applications, ranging from general road maintenance to ditching and terracing jobs.

These blades are recommended for use on two-wheel drive tractors up to 90 PTO horsepower and four-wheel drive tractors up to 70 PTO horsepower.

The 91 Series blades feature a number of tilt, angle, and offset adjustments in both the forward and reverse positions for the versatility to handle a variety of tough jobs.

## 100 & 160 SERIES BLADES

**100 Series  
Available in 8 and 9-foot operating widths.**

**160 Series  
Available in 8 and 10-foot operating widths**

The 100 and 160 Series Rear Blades are the ideal choice for heavy-duty grading chores around the farm such as road construction, terracing, dam building, and cleaning out feed lots.

These blades offer a choice of manual or hydraulic tilt, angle, and offset adjustments. Moldboard can be reversed for backfilling. They are rated for use on a wide range of 2WD and 4WD tractors, depending on blade width.

With their heavy-duty construction, the 100 & 160 Series Blades are engineered and built to meet the most demanding conditions.

## 225 & 300 SERIES BLADES

**225 Series  
Available in 8, 10 and 12-foot operating widths.**

**300 Series (not shown).  
Available in 12 and 14-foot operating widths.**

The heavy-duty design and construction of the 225 and 300 Series make them ideal for the most rugged road maintenance and grading jobs. The precision-formed moldboards are reinforced to withstand the most demanding conditions and can be reversed for backfilling. These top-of-the-line blades are rated for use on higher horsepower tractors and feature standard all-hydraulic controls for ease of operation. The 225 and 300 Series are ready for heavy-duty action and give you the ability and confidence to tackle the toughest jobs.
