Performance You Can Count On™

## Road Grader

## RG60, RG72 and RG84

Potholes beware! Bush Hog's line of road graders smooth out your ride and return your dirt, gravel, or slag roads to like-new condition. Designed with two offset and angled scraper blades within a boxed frame, these Bush Hog® road graders cut off material from the high spots in your road and deposit the material in the low lying areas, thereby leveling the surface. Our RG-Series road graders are available in 5, 6 and 7-foot operating widths and are designed for use on tractors up to 50 horsepower. When you encounter the toughest road conditions and even more material needs to be cut and moved to level the surface, scarifier shanks with replaceable hardened tips are available on each road grader to rip the soil up to depths of 2-3/8-inch. In addition to maintaining existing roads, these road graders can be used in countless other applications such as road building, landscaping, or building and maintaining baseball fields and horse arenas, to name a few. Let Bush Hog's road graders level out your work areas!

Scarifiers can rip soil up to 2-3/8-inch deep

Dual, replaceable and reversible 1/2-inch x 6-inch cutting edges

Full length, replaceable skids

1/2-inch x 6-inch cutting edges
