

# MODEL 317/318 TRAVELING AXLE

**35 OR 50 TON**

The 317 and 318 trailers feature a one-piece, 4-beam frame designed with low-load and a 29" full width, rigid flat approach plate. Operators can easily and safely load a wide variety of equipment without the use of ramps or blocks, eliminating the possibility of damage from high centering or dragging the load over an abrupt approach. The Landoll approach plate can be used for additional load deck space and has four tie down chain slots.

The 317 series is ideal for transporting forklifts, asphalt pavers, and other low profile equipment.

- Optional 62,000 lb. Dock Level Hydraulics
- Load from Ground to 57" Dock Height

## **Field Installed Options**

- Self Contained Hydraulic Power
- Dock Level Hydraulics
- Remote Controls
- Bulkheads

- Easy to Operate Hydraulic Controls
- Selector Valve for Dock Legs

- Additional Loaded Deck Space
- Equipped with Four Tie Down Slots
- Full Width Flat Approach Plate, No Hinge
- Load a Wide Variety of Equipment

- Fabricated Four I-Beam Frame
- Jr. I-Beam on 8" Centers
- Heavy Duty Steel Plate Over Wheels
