## CS-355T FEATURES

- **Chain Brake Lever**

- Dual post for durability
- Windows in lever for improved visibility of work
- Lever cutout to allow user to see bar and chain

- **High Power**

- 20% more power than CS-360T

- **2 Available Bar Lengths**

- 14" & 16"

- **Compact Size**

- Width and air box size decreased

- **Clutch-driven Automatic Adjustable Oiler**

- Only oils bar when chain is moving
- Reduced oil consumption
- Does not leak on user when attached to the belt and idling

- **Palm Rest**

- Palm rest provides support to hand and prevents slipping
- Palm rest is removable and can be replaced with an alternate one (included with the saw) providing more room or removed all together creating even more space for users with larger hands, especially while wearing gloves.

- **Swing-out Lanyard Ring**

- Rigid construction so user can hook onto lanyard with one hand
