<b>WIDTH</b>	8.3'
<b>HEIGHT</b>	5.5' TO 6.2'
<b>WEIGHT</b>	1615 LBS.
<b>TIRE SIZE</b>	480 X 8

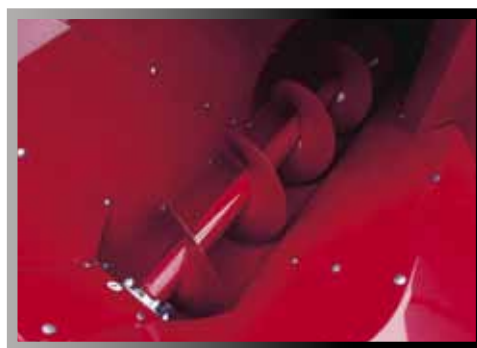

\*Capacity and height will depend on tractor H.P., type of crop, moisture content, length of cut and general repair of pipes and spout.

The hinged blower outlet assembly is removable for easy inspection and maintenance of the cupped paddles.

A built in crank is provided for each wheel to allow for height adjustment for different sized forage boxes and also allows you to raise and lower the blower for transport. Transport wheels are equipped with bearings, not bushings.

The 12 inch diameter feed auger is positioned at a 30° angle to the blower which moves material freely into the blower for maximum capacity.

Cupped replaceable blower paddles mounted in front of the rotating side backplate provide unsurpassed free movement of material from the 30° angle feed auger without any loss of momentum.

A simple over-center clutch linkage will engage and disengage auger. The easy fill hopper extends 20" from the blower housing and is equipped with flexible wind deflectors.

Warranty: See operators manual for warranty details and limitations. H&S reserves the right to change its products or the description at any time without notice or obligation.
