Spray Booms

*At the heart
of good
spraying is
a good
spray boom . . .*

*. . . one that's dependable,
easy to set up, durable
and easy to use.*

Doing Our Best To Provide You The Best

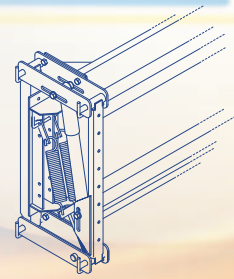

Hydraulic X-Fold Booms

45' or 60'

Hydraulic X-Fold Boom Features:

- *The hydraulic X-fold boom requires two sets of remote outlets and has auto level ride and shock-spring flotation.*
- *Spring loaded cable ride for cushioning and less swing*
- *Wings fold independently.*
- *Outer wing breakaway*
- *10' 8" transport width*
- *11' 9" transport height at a 20" spraying height*
- *Booms are complete with $\frac{3}{4}$ " high volume plumbing and drip free diaphragm check nozzles spaced at 20".*

The shock and spring floating assembly absorbs the bumps and jolts of a rough field ride and delivers a smooth, protective ride to the boom.

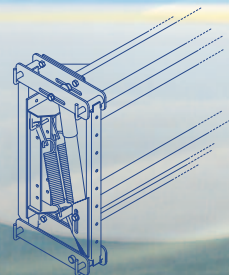

Floating and Truss Booms

45' or 60'

Floating Boom Features:

- Boom is standard with AUTO-LEVEL and SHOCK & SPRING FLOTATION systems.
- Reinforced hinges for spraying at faster speeds through rougher field conditions.
- Heavy duty boom latches at folding joints.
- Boom wings and wing extensions are constructed of 1 1/4" heavy wall tubing.
- Spring loaded breakaway. Simple maintenance. Easy to reach grease zerks. FEWER MOVING PARTS.
- Rear fold boom, all horizontal folding hinges. Less chance of chemical exposure than booms that fold vertically.
- All booms are complete with 3/4" high volume plumbing and drip free diaphragm check nozzles spaced at 20".

The shock and spring floating assembly absorbs the bumps and jolts of a rough field ride and delivers a smooth, protective ride to the boom.

28', 30', 40' or 45'

Truss Boom Features:

- Heavy duty truss framework eliminates boom wing lashing.
- Boom is made of 1 1/4" heavy wall tubing and 1" tubing on the wing extensions.
- Vertical and horizontal breakaway on the boom wings
- Boom neatly folds to the rear for 10' transport width.
- All booms are complete with 3/4" high volume plumbing and drip free diaphragm check nozzles spaced at 20".
- Skids on both ends of boom to protect tips.

Truss-T, 12'-18' and 80" Booms

21', 28', 30' or 40'

Truss-T Boom Features:

- Designed to meet the requirements of small acreage and commercial landscape spraying.
- Vertical and horizontal breakaway minimizes needless wear and tear. Eliminates the lashing associated with a chain boom.
- All hose is $\frac{1}{2}$ " EPDM chemical resistant rubber.

12' & 18' Boom Features:

- Designed to meet the requirements of small acreage and larger lawn spraying.
- Universal mounting brackets provide easy installation.
- All hose is $\frac{3}{8}$ " EPDM chemical resistant rubber.

80" Boom Features:

- Designed to meet the requirements of lawn and garden spraying.
- Universal mounting brackets provide easy installation.
- All hose is $\frac{3}{8}$ " EPDM chemical resistant rubber.

Demco Manufacturing Facility

*We've
been
time
tested
and
proven...*

Back in 1950, Robert Dethmers started the Dethmers Manufacturing Company in a corner of an implement dealership. One of his first projects was fertilizer application equipment for the agricultural industry.

Today, as Demco continues to grow, our tradition of building quality products, employing talented, industrious people, and providing attentive service remains. Our sales staff along with our dealers and distributors across the United States, Canada, and throughout the world market carry on the standard.

Meeting the challenges and opportunities of changing times has produced growth in product lines. Our products are engineered and constructed with the best in materials and the latest manufacturing technology, then tested beyond recommendations, pushing the product to its limit before the Demco name is applied. Our reputation was built on quality and dependability and we continue by being tougher on the product than the consumer.

Demco is committed to giving its customers quality products tailored to meet their needs.
