

# PRO-TURN<sup>®</sup> MACH ONE

LEARN MORE AT [GRAVELLY.COM](https://www.gravelly.com)

## Sonic Boom.

It's like cutting at the speed of sound. Whereas mowing the thickest, tough grass types once cost you more time and energy, the Pro-Turn MACH ONE changes the game. Its aerodynamic tunnel deck has a blade overlap of 1.5 inches and is set back four inches from the front of the deck for less clumping and even grass dispersion. Taming troublesome turf has never felt faster or looked better.

**SEATING SYSTEM** the high-back seat features arm rests, seat isolators and large-diameter steering arms to reduce fatigue and provide all-day comfort.

**DISCHARGE CHUTE** The flip-up side discharge chute is designed to avoid potential damage to the surrounding environment.

**CBT SYSTEM** our exclusive Constant Belt Tension System (CBT) ensures that belt tension is constant, keeping the blade tip speed and cutting results consistent.

**TUNNEL DECK** design puts blades four inches back from the leading edge to lift grass before being cut.

**HIGH-VOLUME OUTPUT DECK** increased depth from trim side to discharge side processes greater material volume.

**FOLDABLE ROPS** comes standard to provide extra protection for the operator.
