

# ATLAS JSV®

## BORN TO WORK.

How do you make the toughest job site vehicle even tougher? Give it an upgraded powertrain, larger engine and more towing capacity, for starters. Then install a more rigid frame and improved suspension for strength in any environment. Haul more. Tow more. Do more.

**POWERTRAIN STRENGTH** A two-cylinder, 1000cc, OHC engine, stronger clutch and smoother drivetrain tackle demanding jobsite conditions.

**CHASSIS AND SUSPENSION** A one-piece chassis and independent rear suspension offers rigidity in the toughest work environments.

**ALL-STEEL JOB BOX** The Atlas JSV 3400SD's fabricated allsteel cargo bed won't buckle or bend. Dump cargo with the touch of a button and haul a fully loaded pallet, thanks to a generous 18 cubic feet of cargo space.

**TIRES** four common size, high-wear tires maximize the potential of just one spare.

**INTERIOR DESIGN** upgraded styling, a digital display and larger foot wells provide a premium work experience.

**TOWING CAPACITY** haul up to 2,500 lbs. to transport even more equipment through the jobsite.
