## OKAY WINTER. IT'S JUST YOU AND ME.

Built for light pickup trucks, the **Arctic HOP-S** fits on QUIK\*LINK mounts, and offers all the robust, dependable features Arctic is known for. The Homeowner Plow is perfect for homeowners that need to remove snow from a long driveway.

OPTIONAL 6" DEFLECTOR  
keeps snow down on the  
blade and away from the  
driver's windshield

1" X 4" POLY CUTTING EDGE

5 STRUCTURALLY  
INTEGRATED REINFORCING RIBS  
for enhanced structural strength

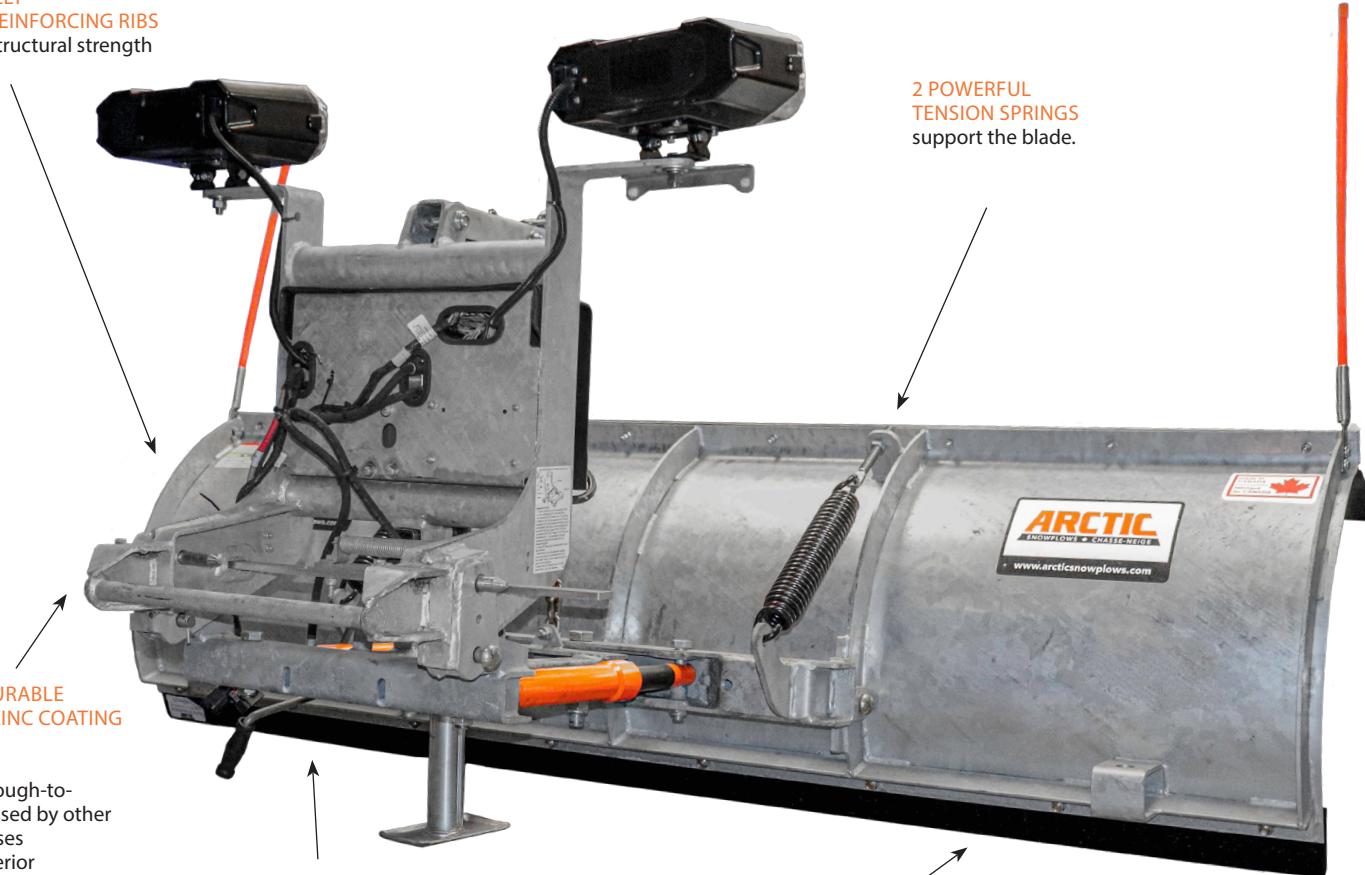

EXTREMELY DURABLE  
GALVANIZED ZINC COATING  
BONDS  
TO METAL

and gets into tough-to-reach areas missed by other coating processes to provide superior rust protection

STURDY REINFORCED  
TUBULAR A-FRAME  
AND FORMED QUADRANT  
ASSEMBLY

2 POWERFUL  
TENSION SPRINGS  
support the blade.

14 GAUGE  
HOT-ROLLED STEEL  
for timeless strength and  
durability

# TOUGHER THAN A CANADIAN WINTER

**WHY CHOOSE STEEL?**

Providing timeless performance and durability - Arctics steel plow blades are constructed from 14 gauge hot-rolled steel, and are reinforced with integrated vertical ribs to form a single, tremendously strong structural unit. Blade curvature maximizes snow roll and handling, leading to reduced vehicle stress and improved fuel efficiency while minimizing over-the-top snow loss. All of Arctics steel blades are dipped in a galvanizing zinc coating for superior rust protection. **Legendary strength and time-proven results, contact your Arctic Dealer for full details.**

**QUIK\*LINK® MOUNTING SYSTEM**

The mounting frame, a smaller version of the full-sized QUIK LINK IV, stands on an adjustable jack stand and houses the M200 power unit in a 5/16" thick laser cut plate.

**M200 ELECTRIC HYDRAULIC SYSTEM**

The M200 electric hydraulic system, with a 1 1/2" x 6" lift cylinder offers proven performance and reliability. This power unit takes a minimum amperage from the trucks electrical system (only 100 amps over relief valve). Standard operating pressures are 1500 psi and the crossover relief valves are set at 2500 psi.

**HOP90-S Specifications**

Plow Name	HOP90-S
Blade Height	25"
Complete Weight *	378 lbs
Skin Blade Material	14 ga Steel
Plowing Width at Full Angle	78"
Deflector	optional
Hydraulic Power Unit	M200 (Low Amperage)
Wear Shoe	optional
Poly Cutting Edge**	1" x 4" x 90"
Warranty	2 Years
Lights	optional

\*Does not include mounting kit

\*\* 3/8" x 4" x 90" steel optional

QUIK\*LINK® is a registered trade-mark of Arctic Equipment Manufacturing Corporation.

**LEGAL DISCLAIMER:** Vehicles intended to be equipped with Arctic equipment must comply with the vehicle manufacturers' specifications for equipment application.

Please consult your vehicle dealer before purchase and installation. The purchaser assumes all vehicle risk associated with the attachment and operation of Arctic equipment.

Arctic reserves the right to change specifications without prior notification.

**HANDHELD CONTROLLER**

This ergonomic controller has 4 rubber-faced buttons, with a float light in the middle. An automatic shut-off eliminates accidental use or drained batteries.

**JOYSTICK CONTROLLER**

The joystick is mounted to the window opening in the driver-side door and allows you to alter the plow's angle in the float position.
