

## JUST WHAT YOU NEED TO BREAK THE ICE.

Our superior salting solutions are now even better. Arctic's newest spreader is engineered with two things in mind: ease and durability. This spreader is very easy to operate and maintain, and offers a new level of toughness, courtesy of our innovative galvanized coating and tough poly hopper.

**ROLLER WHEELS MAKE  
MOUNTING EASY**

## ARCTIC 1/2 HP DIRECT DRIVE AUGER/IMPELLER

No gear drive to rob power from where it is needed and no drive lubricant to turn to molasses in the extreme cold. You will get 75% more auger power, the strongest on the market.

### VARIABLE SPEED CONTROLLER

Our controller delivers 40 amps continuously and surges up to 80 amps for up to three seconds. The controller allows for the control of the spreader from 0-40+ feet depending on the ice melting product used. At start-up the controller automatically gives a blast surge 5 times then returns to the dialed setting. For those hard to cover spots there is a blast override switch allowing for full speed of the motor, no matter what the dial is set for.

## ARCTIC HITCH MOUNTED SPREADER SPECIFICATIONS\*

| Model          | HM6P    | HM8P    |
|----------------|---------|---------|
| Capacity       | 6 cu/ft | 8 cu/ft |
| Overall Height | 35.5"   | 38.75"  |
| Width          | 45"     | 45"     |
| Depth          | 25"     | 25"     |
| Weight         | 150 lbs | 155 lbs |
| Salt Capacity  | 350 lbs | 450 lbs |
