## **THE ALL-NEW STEEL EDGE STORM BOXX™**

Even the biggest storms are no match for the new FISHER® STORM BOXX™ pusher plows, designed with a steel trip-edge for clean scraping performance. Available in multiple sizes for multiple applications, they attach quickly and easily to skid-steers, backhoes, wheel loaders or tractors by using the interchangeable attachment plates.

And they do it with a purpose in mind: to move massive amounts of snow, fast. Time to give winter some pushback.

Tractor Plate

### STEEL TRIP-EDGE

- Provides a cleaner scrape while protecting you and your equipment
- Steel cutting edge is center punched resulting in improved service life
- Constructed with four extension springs and reinforced with two double ribs at the trip springs

### STRUCTURAL SUPPORT

- Six vertical support ribs provide structural integrity
- Reinforced structural steel channel has fully welded seams to prevent twisting and to maximize bucket impact strength
- Side support struts provide protection for the wings against bending from hitting curbs or other accidental impact

### INTERCHANGEABLE ATTACHMENT PLATES

- Provides flexibility to attach the pusher to various types of equipment within the fleet
- Plates available for skid-steers, wheel loaders, backhoes and tractors

### ACCESSORIES

- **Back Drag Edge:** A top-mounted, rubber back drag edge allows operators to pull snow away from loading docks, doors and other tight spaces
- **High Wear Shoes:** Provides increased service life for extreme use applications
