ONE WINDROW ROTARY RAKES

**RR320
RR420/450EVO**

RR320

Enorossi Windrow Turner RR320

A very versatile machine with unit in oil bath projected and realized for small to medium companies. Working height can be adjusted with worm screws, pivoting wheels, and articulated frame with shock absorber. Projected for raking in all situations with excellent results. Made of high quality steel ensure great performances and long durability.

RR420/450EVO 3 POINT HITCH

Enorossi Rotary Rake RR420/450EVO 3 POINT HITCH

Enorossi has developed the RR420/450EVO especially for smaller farmers who like to organise their work independently and frequently work in small field structures.

The working widths of 4.2 metres (13'8") to 4.5 metres (14'8") make them ideal for these tasks.

The machines run smoothly with faster working speeds, and the wide track of the tandem chassis ensures high driving stability and reliable rotor guidance, even on hilly terrain.

RR420/450EVO PULL TYPE

Enorossi Rotary Rake RR420/450EVO PULL TYPE

The new Enorossi rotary rakes clean sweep raking widths from 4.2 metres (13'8") to 4.5 metres (14'8") allowing you to get the most from your hay crop efficiently.

Each Enorossi Rotary Rake features a hydraulic lift system and adjustable height to ease fieldwork and maximize manoeuvrability. The adjustable front cylinder allows users to fine tune pitch and all Enorossi Rotary Rakes feature removable tine arms. Adjustable cam allows operator to set teeth according to hay conditions. Cardan shaft with slip clutch. Standard tandem axles, sealed oil bath gearbox.
