*Weights based on 7 1/2" row spacing with main seed box only. Weights will vary with options. **7 1/4" spacing available on vineyard models only.

Note: All specifications subject to change without notice.

Standard Features

WIDE SEED CUPS - Exclusive Great Plains fluted feed cup delivers outstanding accuracy. Whether the seed you are drilling is small, large, or fragile, our time-proven metering system will deliver the rate you choose, evenly and gently.

WATERPROOF MANUAL HOLDER - Keeps Owner and Operator Manuals flat and in good condition. Simply lift tabs to remove.

V-BOTTOM DIVIDERS - Allow all the seed to feed from the seed box to the feeder cup so you get complete emptying. Dividers also help prevent seed from shifting in the box on sidehills.

4-SPEED GEARBOXES - Provide increased accuracy and flexibility of the metering system by giving the operator more choices for drive speed.

DIGITAL ACRE METERS - LED readout of current acres on machine. Unique design conserves battery power.

GREASE BANK - Installed on no-till machines so all coulters can be serviced from a centralized location.

SAFETY LIGHTING - Standard equipment on all but the 3P500 and 3P600 models. Provides high visibility and safety during transport.

SEED LEVEL INDICATOR - Easy to read from the tractor seat. Our floating indicator provides an accurate reading from inside the seed box.

Additional Seed Boxes*

SMALL SEEDS BOX - Smaller version of the main box fluted feed cup. It provides precise metering of small seeds like clover and alfalfa.

FERTILIZER BOX - Features stainless steel components for long life. Six-Point Star Meter Wheels accurately meter just the amount of fertilizer you desire.

NATIVE GRASS BOX - The Series II Native Grass Attachment features a very aggressive agitator and picker wheel to keep fluffy seeds moving through the meter. Large cups and hoses keep seed from bridging.

SECOND MAIN SEED BOX - This option gives you another wide fluted feed cup and box to deliver a second type of seed to the opener. (Not available on all models.)
