THE CORROSION SOLUTION

COROSOL® corrosion solutions are the result of PRP® Industries' METAL POLYMERIZATION® process. The result is a field-proven corrosion solution that prevents the devastating effects of undercutting and blistering on Demco's steel products.

FIELD-PROVEN TESTING Washington State Department of Transportation is particularly hard on its snow removal equipment. Exposure to months of harsh conditions and corrosive road salt while operating in mountainous regions is why we chose their equipment to field test COROSOL® corrosion solutions. The two salt spreader trucks shown below were brand new in 2008 and have since operated continuously out of the same facility.

BLACK PLASTIC LIQUID TANKS
Eliminates light from reaching the interior contents preventing algae and microbes growth

APITONG FLOORING
1 1/8" x 7" Apitong flooring

12 VOLT POWER SUPPLY

12 VOLT POWER SUPPLY

CENTER DECK TIE DOWNS

24" KING PIN

AIR COUPLER
Available on front, rear, or both

MIDSHIP TURN SIGNALS
