- **Slim hands**
For closer stacking
- **Unmatched compact design**
For better visibility and weight transfer on smaller tractors
- **3 position adjustable hands**
Handle both rounds & squares
- **Large 32mm pins**
For long life
- **Optional Equaliser Bar®**
For precision bale control
- **Contoured design®**
Eliminates chances of ripping bale wrapping

CXR Soft Hands®

EXCEPTIONAL VALUE FARMER'S BALEHANDLER

The perfect bale handler for farmers who don't need to move many bales. It is designed tough, predominantly for handling round bales and the compact design is suitable for any size tractor.

- **Unmatched compact design**
for better visibility and weight transfer on smaller tractors and eliminates any bale tearing
- **NEW Unique hand design**
easily slips between bales for precise stacking.
- **Optional Patented Equaliser Bar®**
with float for easier loading and precision bale handling
- **Large 32mm pins**
For long life
- **Kiwi Made** right here in New Zealand
- **2 year warranty** for piece of mind

HUSTLER®
Rethinking the Everyday

HUSTLER®
Rethinking the Everyday

You know you're in very good hands

Conceived by Hustler and first produced in our factory in 1993, Soft Hands[®] was our answer to the need for a system that handles bales gently and helps preserve the life of feed by eliminating ripped bale wrapping.

It continues a longstanding Hustler tradition of clever thinking, over-engineering and rigorous field testing - backed by the Hustler guarantee that your equipment will keep on handling whatever you put in front of it.

"We did 145,000 bales in 2 years with our last set of Megas without replacing any parts"

HAWKES BAY BALEAGE CONTRACTOR

"Very manoeuvrable. So easy to adapt from square to round bales. Never damages plastic wrapping. You can make a nice even square stack farmers are very happy with. We're 110% happy with it."

AGRICULTURAL CONTRACTOR, HAWKE'S BAY: HUSTLER MEGA SOFT HANDS[®]

Many hands make light work

There's a Soft Hands[®] option to meet the handling requirements of any operation big or small - from the super-strong Mega Soft Hands[®] for high volume users, to the System 10 Soft Hands[®] for the farmer who needs extra versatility from a handling system.

Mega Soft Hands[®]

THE CONTRACTOR'S BALEHANDLER

Bigger, taller hands allow you to move twice the number of bales in almost half the time it takes with smaller models. Field-tested to handle bales up to two tons, Mega Soft Hands[®] is the large-scale farmer or contractor's choice for moving 100,000 bales or more a year.

- **Even clamping pressure**
Avoids overstretching wrap
- **Slim hands**
For closer stacking
- **3 position adjustable hands**
Handle both rounds & squares
- **HUGE 38mm pins**
With beefed-up pivots & greasable bushes
- **Can clamp 2 bales at once**
Handles up to 2 tonne
- **Equaliser[®] Bar**
For precision bale control and operator safety
- **New contoured shape**
Eliminates any bale tearing or ripping
