

FLAIL MOWER

HEAVY GRASSES | FINISH CUTTING
INTERCHANGEABLE BLADES

FLAIL MOWER

The Steiner Flail Mower attachment delivers performance and durability while effectively cutting through tall, heavy grass and brush up to ¾" in diameter. Easily transition from rough cutting to finish cutting by utilizing the two different knife options. The new Flail mower comes standard with the "Y" knife or "industrial" knife used for cutting tall, heavy grass and brush. The "Scoop" knife is used to give turf a more finished cut and can be changed out in under 45 min. Each deck comes standard with a rear roller which gives the turf a nice stripe and finished look. This rear discharge mower deck is perfect for cutting along roadways and sidewalks to help keep debris out of unwanted areas. The drum spins away from the operator which will not only help give a better quality of cut, but it will also help prevent debris from coming back into the operator's station.

- Steiner QuickHitch™ attachment system for easy installation or removal in minutes without any tools
- Rubber Guarding for added protection against flying debris
- Versatility: Quickly change the cutting knives to go from rough cutting to finish cutting in a matter of minutes
- 72 "Y" Knives, or 36 scoop knives
- Rear roller for striping and stability
- Kick Stand
