

VARIABLE ATTACK WING (V.A.W.)

THE PLOW

Arctic's hydraulically activated multi-angle wing, has transformed our heavy duty trip edge plow to become 123" in the open position; or a 98.5" box plow at the push of a button. This fully angling blade will give better control in all positions for effective snow management.

SPECIAL FEATURES

- 33% greater carrying capacity than a v plow
- Built for 3/4 ton trucks and larger
- Galvanized frame and components provide best corrosion resistance on the market
- Poly moldboard eliminates snow sticking and uses UV inhibitor for fade resistance
- Easy on / off removable jack
- Hydraulic wings can be angled independently from wide open to box position
