

TDF-HD

MP 00-90

SOVEMA
S.p.A.

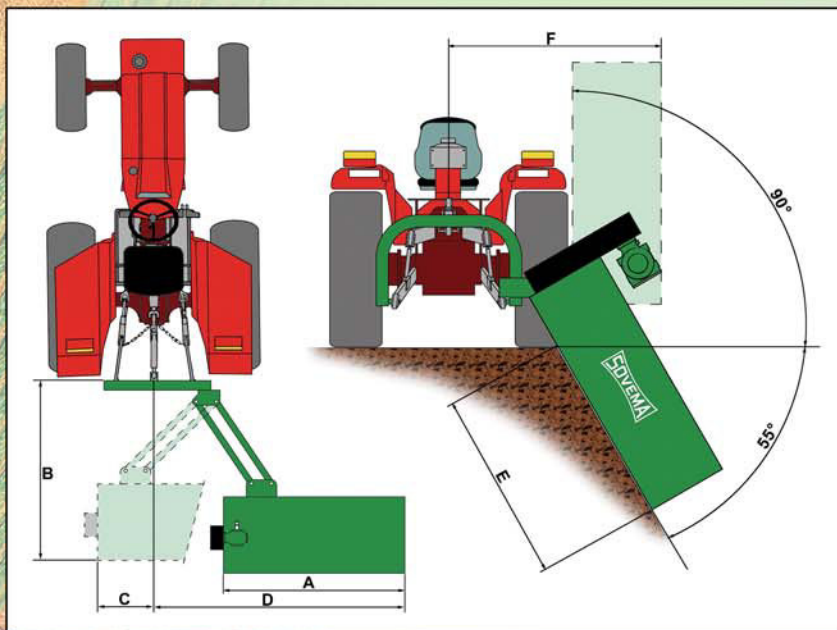

Per trattori di alta potenza, la serie TDF-HD è stata realizzata con una struttura particolarmente robusta. E' la macchina ideale per la pulizia del sottobosco e dei fossi, ed è disponibile nelle larghezze di lavoro di cm. 180, 200 e 220.

For medium and high powered tractors, the TDF-HD is manufactured with very strong, high quality materials. It is the right machine for clearing ditch banks and under trees. This heavy duty series with reinforced frame components is available in 3 sizes, cm 180-(72"), cm 200-(80"), and cm 220-(88").

*trincia laterale
side flail mower*

La macchina di serie, viene fornita con rullo posteriore e slitte di regolazione. Protezione del supporto e del coperchio copricinghia. Attacco rinforzato sul telaio. Cofano posteriore apribile.

Supplied as standard equipment on this series are shock absorbing / cushioning valves in the hydraulic cylinders, rear roller and skids and protective bumper guards for each end of the machine. As well the machine features a rear deflector shield which can be set open or closed discharge.
