

RJLand Leveller

The finishing touch for ideal seedbed preparation on large level acreages
Level out low spots and eliminate water pooling for a stronger start to seeded crops

RJ Equipment

Reliability that you can grow on!

RJLand Leveller

The finishing touch before you seed

- Improve drainage on large level fields
- Avoid dead furrows
- Pull behind disc or cultivator for a smooth final finish
- Recommended by Ontario farmers since 1991

Standard Features:

- Wingspreads from 20' to 40' made to order
- Large rectangular tubing construction
- 12 ft. centre section on 22' to 30' models
- 14' centre on 32' units and larger
- 3" x 4" x 3/8" heavy duty angle iron on bottom
- Quick-clamp hold downs on back
- 16 1/2" high clearance
- Single 11Lx15 transport wheel

Locking pin simply secures wings in upright position for transport.

Over-centre clamp locks down the wing into a level, rigid position for levelling.

Rear levelling frame is set forward from chassis frame to reduce plugging.

Optional Features:

Dual transport wheels provide smoother ride when roading.

Hydraulic cylinder on tongue adjusts the tongue levelling depth from the tractor.

Dolly wheels reduce load on the tongue and improve tracking when pulled behind disc or cultivator.

Talk to your RJ Equipment dealer for the experienced advice on best utilization of your acreage and harvest plans.
