EZ 2500 V
Standard Offering

Provides durability, quality, and simplicity

- Provides basic features for most applications
- Hold Key to "freeze" the displayed weight when moving the equipment
- Remote display port
- Standard offering with every mixer
- Slimline profile fits nearly anywhere

EZ 2400 V
12-8968-20

Ideal for simple feed mixer and general weighing applications

- Alarm light (12-8970-10) , horn (12-8969-10), remote transmitter (12-8946-10), or wireless radio can be added
- "Select" and "Function" keys allow utilization of Memory Plus (M+) and Recall Memory (RM) features showing total number of loads, total weight, accumulated and average weight
- Remote display port

EZ 3400 VL
14-0046-10

Utilize basic recipe and batching capabilities

- Build different recipes for multiple pens
- Eliminates the need for feed sheets
- Enter rations by three different methods
    - Amount per animal
    - Percent per load
    - Amount per load
- Remote display port
- First ingredient resizing - allows bales of different weights to be loaded as 1st ingredient and adjusts all other ingredients to compensate for a target final weight

EZ 3600 V
15-1205-00

Full Feed Management Indicator

- Program rations at your PC or from the front panel of your indicator
- **Compatible with TMR Tracker® Feed Management Software**
- Internal "alarm light and horn" alerts operator of approaching target weights
- Make "pen call weights" and "head count" changes at the indicator
- Multi-language help messages
- Remote display port
