

COMPACT SMOOTHWALL SOLUTIONS

The compact Magnum G Smoothwall bin is designed for easy shipping, and even easier set up – configure them with the factory options specific to your operation and then simply drop them into place! Whether you're a grower looking to add some additional storage for your farm, craft brewery, distillery or feed operation – these bins are the perfect storage solution for small spaces.

KEY FEATURES

- Diameters available: 8' or 9' 6"
- Sidewall heights available: 8', 10', 12', 15'
- 60° cone for easier cleanout and less hangout
- Roof and sidewall ladders for easy access to roof and lid opening
- Large 24" roof lid opening for quick loading
- 19" bolt flange discharge for unload flexibility
- 34" tall discharge clearance for versatile unloading adaptations
- Sight glass above support ring for visibility inside the bin without having to climb up

SUITABLE FOR:

- Small farms
- Breweries
- Distilleries
- Feed operations

ADDITIONAL OPTIONS INCLUDE

- Welded foundations
- Weld on or bolt on rack and pinion assembly
- Roof inspection hatch
- Auger boots
- Transitions
- Auger mount tabs
- Lifting lugs
- Level alerts
- Additional sight glasses
- 8" poke holes
- 5" pail spouts
- Bottom inspection hatch
- Internal paint
- Option for flat deck shipping
- Roof vents
- Pneumatic fill tubes feed into roof, not lid
- PVC Fill/Vent pipes
- Ladder cages

AGI is a leading provider of equipment solutions for agriculture bulk commodities including seed, fertilizer, grain, and feed systems with a growing platform in providing equipment and solutions for food processing facilities. AGI has manufacturing facilities in Canada, the United States, the United Kingdom, Brazil, India and Italy and distributes its products globally.

291554	912 MAG-G	32	24	1,124	949	9' 6"	25' 4"	22' 5"	41'	2,567
291555	915 MAG-G	39	28	1,337	1,128	9' 6"	28' 4"	25' 5"	46'	2,857

Note: The bulk density of grains and feeds will vary depending upon the blend and manufacturer. Westeel calculates the capacity by using 55 lb/cu. Ft for grain and 40 lb/cu. Ft for feed. Multiply the bulk density of the product you are storing by the cu. ft. capacity of the bin for an exact tonnage rating.
