

Kärcher's G 3200 XC gas pressure washer was designed from the ground up to meet the requirements of homeowners who demand professional level cleaning results, maximum durability and a user-friendly work experience. The result is a pressure washer that is unmatched in quality and design. The G 3200 XC sports many industry-leading features, including an oversized detergent tank, a quick connect hose for easy setup and a durable welded frame that outlasts typical riveted/bolted frames. The G 3200 XC uses technology borrowed from Kärcher's commercial products, including a German engineered, commercial-grade pump with brass head that comes with its own 5 year limited warranty! The unique folding frame makes the unit easy to lift and transport, with tie down slots to keep everything anchored during transport and protected from damage. The G 3200 XC represents great value, offering German engineering, a commercial-grade pump and a unique, ergonomic design that stands out from the crowd.
