FEATURES

ADJUSTABLE MOUNTS

The universal box mounts are infinitely adjustable across the chassis cross bars. Accomodating boxes from 18-20 feet on the TC1820 and 20-24 feet on the TC2224.

EXPRESS JACK

This 12,000lb rated jack covers more ground quickly. Extend the foot extension with a pull of the pin then crank the handle. The extension gets you closer to the ground so that more of your cranks lift the trailer.

PIVOT TONGUE

The tongue pivots 45 degrees in both directions reducing binding and increasing safety all while protecting your investment.
