Wheeled Box Scrapers

Our new DS-1 Series is a drag scraper designed for road and driveway grading and general land leveling.

This versatile hydraulic drag scraper makes maintenance of roads and driveways an easy task. **Designed for 35 - 120 horsepower tractors**, the hydraulic control allows for smooth land leveling for any project from farms and ranches to construction and general contracting. A hydraulic tilt option is available when road crowning and finer grading applications are required.

Perfect for:

- Road Building and Maintenance
- Heavy Duty Land Leveling
- Ditch and levy drainage maintenance
- Construction lot preparation

End plates are 3/8" thick and the moldboard is 1/4". The formed moldboard keeps material flowing and reduces drag during operation. Also, the heavy duty cutting edge is reversible for many hours of operation. 3" X 8" hydraulic cylinders are standard.

Non-tilt models.

Model #	Width	Hitch	Load Capacity	HP Rating	Weight
DS1-96	8'	Draw pin	44 CU. FT.	35-65	1300#
DS1-120	10'	Draw pin	50 CU. FT.	60-90	1,450#
DS1-144	12'	Draw pin	60 CU. FT.	85-120	1,600#

Tilt models.

Model #	Width	Hitch	Load Capacity	HP Rating	Weight
DS1-96T	8'	Draw pin	44 CU. FT.	35-65	1450#
DS1-120T	10'	Draw pin	50 CU. FT.	60-90	1,600#
DS1-144T	12'	Draw pin	60 CU. FT.	85-120	1,750#

Horsepower requirements may vary from two wheel drive to four wheel drive according to tractor specifications

Box Scrapers

TB1-84

TB2-96

Tufline's Box Scrapers are designed for years of service producing professional results with every application. All units are equipped with adjustable hi-strength alloy steel scarifier shanks and 2 heat treated 1080 grade reversible cutting edges. Each unit has radius formed moldboards for efficient loading and unloading of dirt and hi-strength adjustable scarifier shanks with a high clearance scarifier bar for less trash build-up.

TB1

Hitch - Category 1
 Medium weight scrapers with 1/4" end plates
 Optional 3/8" end plates
 Dual cutting edges

TB2

Hitch - Category 1 on 5', 5'6" & 6' models
 Category 1 & 2 on 6' 1/2", 7' & 8' models
 Heavy duty scrapers with 1/4" end plates
 Optional 1/2" end plates
 Dual cutting edges

Model #	# of Shanks	Load Cpty.	Width	HP Rating	Weight

Horsepower requirements may vary from two wheel drive to four wheel drive according to tractor specifications

Large Capacity Scrapers

Our PHB Series is an extra capacity box scraper designed for poultry house and dairy barn cleaning. This box scraper is ideal for general work around poultry and dairy operations for barn and feed lot cleaning, light land leveling and grading. It is a low cost alternative to heavier construction grade scrapers. Designed for 30 - 75 horsepower tractors, this series comes in two widths. Perfect for:

- Corral Cleaning
- Poultry Barn Cleaning
- Pig Barn Cleaning
- Horse Arenas
- Farm Road and Driveway Maintenance
- Light Land Leveling

The PHB Series is constructed using 4" square tubing. End plates are 25 1/2" tall and 36" deep. Skid shoes for height control are optional. The formed moldboard keeps material flowing and reduces drag during operation. The three point hitch fits category I & II. Also, the heavy duty cutting edge is reversible for many hours of operation.

Model #	Width	Load Cpty.	HP Rating	Weight
PHB-84	7'	44 CU. FT.	30-75	684#
PHB-96	8'	50 CU. FT.	40-75	784#

Horsepower requirements may vary from two wheel drive to four wheel drive according to tractor specifications

Our new CBS Series Corral Box Scraper is designed as a lower cost, maintenance free alternative to more expensive construction grade scrapers. This box scraper is ideal for general work around cattle, poultry and pork operations for barn and corral cleaning, land leveling and grading. It is low maintenance and trouble free. Designed for 40 - 120 horsepower tractors, this series comes in four widths to fit any need your operation might have.

The CBS Series is constructed using 4" square tubing, 1/4" moldboard, and 3/8" endplates. The formed moldboard keeps material flowing and reduces drag during operation. The three point hitch fits category I & II. Also, the heavy duty cutting edge is reversible for many hours of operation.

Model #	Width	Load Cpty.	HP Rating	Weight
CBS-84	7'	36 CU. FT.	40-60	725#
CBS-96	8'	44 CU. FT.	50-70	815#
CBS-120	10'	50 CU. FT.	60-100	1010#
CBS-144	12'	60 CU. FT.	70-120	1205#

Horsepower requirements may vary from two wheel drive to four wheel drive according to tractor specifications

Grader Blades

GB1-72

GB4-84

GB4-96HR

GB5-108

Tufline's GB Series Grader Blades are designed to give you the quality, dependable performance that your operation requires. Whether land leveling, road maintenance, ditching, terracing, snow removal, or general commercial grading is needed, Tufline has the right blade match-up for all your applications.

All GB Series units offer standard quick-tilt, angle and offset manual adjustments. The GB4 and GB5 Series also employ hydraulic cylinder adjustment as an option. Tufline sets the standard with quality products at value pricing. Put a Tufline blade to work for you today. Each unit's cutting edge is 6" width reversible-1080 heat treated material and comes standard with a sturdy park stand. Skid shoes are optional on each model. The GB Series Blades are available in four weight categories.

GB1

Hitch-Category 1

Angle adjustments - 7 positions right or left

Offset adjustments - 2 positions right or left

Tilt adjustments - 15-30 degrees right or left

GB4

Hitch-Category 1-2

Angle adjustments -15-30-45 Degrees forward or reverse

Offset Adjustments - 15-30 degrees right or left.

Tilt adjustments - 15-30 degrees right or left

GB5

Hitch - Category 2

Angle adjustments -15-30-45 Degrees manual right or left - forward or reverse

Offset Adjustments - 10 or 27 degrees right or left.

Tilt adjustments - 15 or 30 degrees right or left

Park Stand - Standard

Hydraulic Package - Tilt, Angle, and Offset cylinders optional

Model	Width	Mouldboard Height	Mouldboard Thickness	HP Rating	Weight

LP2-120S	10'	8	35-75	1035#

Horsepower requirements may vary from two wheel drive to four wheel drive according to tractor specifications

Tufline's LR series landscape rakes are quality built units that offer many versatile landscape applications. The heavy angle rake tine bar with 5160 grade high carbon spring steel tines are heat treated for added strength. The rake support and hitch is constructed with 4" heavy wall tubing and offers both left and right angling or a 360-degree pivot when backfilling is required. All units offer a standard category 1 hitch, park stand and optional gauge wheel kit.

Model #	Width	HP Rating	Weight
LR1-60	5'	20-40	348#
LR1-66	5 1/2'	20-40	365#
LR1-72	6'	30-50	382#
LR1-84	7'	30-50	405#

Horsepower requirements may vary from two wheel drive to four wheel drive according to tractor specifications
