

EQUALIZER™ Track for grain carts

Unverferth
Manufacturing Company, Inc.

**INDUSTRY'S
WIDEST**

Large-footprint tracks for large-volume grain carts

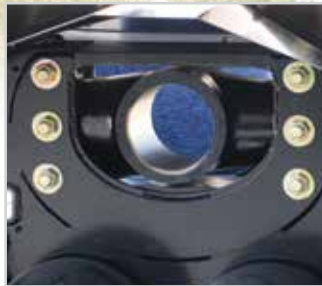

If you think all things are equal when looking at tracked undercarriages for grain carts, you need to look again. Only the 42" Equalizer™ tracks from Unverferth offer the largest footprint in the industry — over 60 square feet — and a unique design in which each track independently cambers to follow ground contours — the tracks equalize to follow altering terrain — for optimum flotation.

EQUALIZER™ Track for grain carts

All grain cart track systems are not EQUAL!

Tracks equalize to follow altering terrain – each track independently cambers to follow ground contours for optimum flotation and minimum compaction

Patent-pending pivot allowing bi-directional rotation of the track for better contact with the ground on uneven terrain

Exclusive belt design with shallow tread belt pattern for greater flotation and traction

Auto-greaser system for automatic application for more frequent intervals for consistent lubrication of track undercarriage

- 42" x 148" long – widest in the industry with a compact length for enhanced maneuverability and 15 percent greater flotation
- 40" main idler wheels with 10-bolt hubs for proper tensioning
- Four pair of pivoting cast midrollers on each track assembly
- Main idler and midroller wheels are all in the same plane for optimum flotation
- Hydraulic belt tensioning adjustment for easier track alignment, optimum ground contact and even weight distribution
- All hubs are greaseable and feature single-lip seals with a steel seal guard which acts as a secondary seal and protects the rubber lip on the inner seal
- Available on select 1,300-bushel and larger Brent, Killbros, Parker and Unverferth brand grain carts

Unverferth Equalizer track specifications

Bogie Wheels - For 2 Tracks	16
Pivot Shaft Diameter	7"
Belt Width - For 1 Track	42"
Belt Length	148"
Ground Contact Length	105"
Ground Contact Area - For 1 Track	4,410 in.
Approx. Track Wt. - For 2 Tracks	15,100 lbs.
Front-To-Back	±20°
Camber (Side-To-Side) Oscillation	±8°

See your nearest Brent, Killbros, Parker or Unverferth dealer today or unverferth.com for complete details on the Equalizer Track for grain carts.

Due to continuing improvements in the design and manufacture of Unverferth products, all specifications contained herein are subject to change without notice.
