

# RJ Plug Planter

Design your planter with the total flexibility to achieve the ideal planting rates and row spacing for your operation

Make the most of every minute with RJ's 6-cup carousel with the deep square chambers to ensure a quick, accurate release every time

*Reliability that you can grow on!*

# RJV 600 Plug Planter

*Reliable, productive planting tailored to your fields,  
your crops and your harvesting requirements*

**Efficient planting:** one-piece square-cornered aluminum cups with deep chambers to handle tall plants easily and ensure optimal drop distances

**Optimal setup:** row spacings adjustable down to 16" with quick-change plant spacing from 4" to 36"; an accessible jack at the tail allows easy on-the-go adjustment of the planting depth

**Field serviceable:** RJ's simple structure with its springless trip mechanism and quick-change replaceable shoes is designed for fast on-the-spot servicing with everyday tools

**Traditional productivity:** familiar, efficient planting arrangement with one carousel per operator allows workers to finish the maximum acreage for every planting day

*Design your planting  
system your way with  
RJ Equipment*

Complete range of water tanks, tray storage, tarps and frame configurations to suit your planting and work crew requirements

Comfortable seating for productive crews

Rear jack allows quick adjustment of planting depth in the field

## No-till planters

RJ Equipment builds the original no-till planter specially designed for efficient planting through crop residues. The RJNT 600 plug planter replaces the standard coulter with a 20" spring-loaded coulter to cut through trash, then a double-disc spreader on the shoe to open the row for planting.

# RJV 600 Plug Planter

## Standard Features:

- Double watering shoe allows more flow in dry conditions
- Optional hard-chromed shoe provides double the service life and less sticking
- Adjustable 17" wavy coulter cuts through trash to maintain consistent shoe penetration
- Springless trip mechanism
- Traction-type ground wheel drive
- Spring-loaded down pressure
- Spring-loaded nylon scraper
- Cushioned seat combats fatigue

## Optional Features:

### Planter Unit

- Spacing gears
- Down pressure springs
- Chrome shoe for better wear
- Straight 17" coulter
- Chain guards for trash and mud
- Customized "Onion" options

### Frame

- 1 to 10 row pull type
- 55-1025 (U.S.) gallon poly water tanks
- 1 to 10 row three point hitch frame
- Pressurized water
- Rear plant storage with tarps
- Row marker
