

1300 Series

Disc Mower
Conditioners

HESSTON
by MASSEY FERGUSON

**Clean cut. Fast finish.
Quality hay.**

The experience to conquer any task.

We realize that every farm is different and every farmer and rancher has different needs. But one thing's for sure. Nobody wants a machine that strips the crop or plugs on the job. That's why Massey Ferguson® goes to such great lengths to ensure that every Hesston by Massey Ferguson disc mower conditioner features smooth cutting, maximum efficiency and unmatched reliability. And we offer five different models, one of which will fit your job perfectly.

Conditioner Options					
Model	1359	1363	1366	1383	1386
Steel-on-Steel	✘	✘	✘	✘	✘
Rubber-on-Steel				✘	✘
Rubber-on-Rubber	✘	✘	✘		
Tine Conditioner		✘	✘		
Less Conditioner		✘	✘		

RazorBar Cutter warranty

Warranty covers RazorBar-equipped heads and mowers, plus the 1359.

Three-year, unlimited hours, parts-only warranty.

DISC MOWER CONDITIONERS. COMMERCIAL STRENGTH. RAZOR SHARP.

It's everything you want from a commercial mower: robust reliability, quality hay and a faster finish. The secret of the Hesston by Massey Ferguson 1300 Series lies in unique design features like its clean-cutting RazorBar™ cutter bar and distinctive hydraulically tensioned conditioner rolls. Together, these exclusive features will produce the high-quality hay you're looking for, and in record time.

Cut it close

Want self-propelled cut quality without the windrower cost? Get it with the 1386 and 1383 models. Its RazorBar cutter bar spur gear design has a thinner profile. That means more precise cutting with less scalping. Plus each gear assembly and adjacent idler gear can be individually removed for faster, easier maintenance.

Crimp, don't crush

Industry-exclusive hydraulic-tensioned roll conditioning delivers consistent quality hay. Steel-on-steel or rubber-on-steel conditioner rolls crimp the crop every 1-3 inches without crushing nutrient-filled leaves. Crimping pinches the stem for faster drying while preserving leaf quality. Plus its herringbone design feeds and conditions material more evenly. The result is a top-quality, high-protein crop that's more palatable—and more valuable.

Category	Model	Cutting Width Ft. (M)	Required PTO HP (Kw)	The Perfect Fit
Side-Pull Disc Mower Conditioner	1359 1363	9'3" (2.8 m) 9'10" (3 m)	60 (45 kW) 75 (56 kW)	Cut and condition tough tangled crops at speeds that can only be attained by a rotary disc machine, even if your needs seldom call for anything larger than a 10-foot mower conditioner.
Center-Pivot Disc Mower Conditioner	1366 1383 1386	9'10" (3 m) 13' (4 m) 16' (4.9 m)	75 (56 kW) 100 (75 kW) 120 (90 kW)	For capacity, maneuverability and cutting speed that can be matched only by a self-propelled machine, our center-pivot disc mower conditioners are the perfect choice for budget-minded professionals who demand clean cutting in variable conditions.

RazorBar Cutter warranty

Warranty covers RazorBar-equipped heads and mowers, plus the 1359.

Three-year, unlimited hours, parts-only warranty.

Arch frame support for added strength and stability.

RazorBar™ cutter bar for close, clean cutting with proven reliability.

Drive system that gives you the torque you need to power through tough crop conditions.

NEARLY SEVEN DECADES OF FIRSTS

For almost 70 years, Hesston has been dedicated to creating innovative products that produce one thing: quality hay. We've been recognized as the hay and forage innovator since 1955, when we developed the first commercially available self-propelled windrower. Other industry firsts have included the first hydrostatic windrower, the first center-pivot mower conditioner and the first large square baler — which had nearly 50 individual patents of its own. No wonder we're the number one choice of hay professionals across North America.

AGCO, Your Agriculture Company, is a premier manufacturer of agricultural equipment, providing high-tech solutions for professional farmers feeding the world. The company is dedicated to delivering superior customer service, innovation and quality. AGCO products are distributed in more than 140 countries worldwide.

Hesston is a proud sponsor of the National Finals Rodeo and the Professional Rodeo Cowboys Association.
