## PDT3A

### Diaphragm Pumps of the PDT series

The PDT diaphragm trash pumps can move almost anything that flows

These pumps are ideal for moving water with mud, slurries and in seepage areas. Built with high quality component, you will be assured of many years of top performance and durability. Large solid rubber tires provide excellent traction and smooth rolling over rough terrain.

### Highlights

- Straight through water flow design
- Ductile iron crankcase for maximum durability.
- Lightweight cast aluminum housing
- Surge chamber on inlet side for smooth pumping
- Oil bath lubricated transmission reduces maintenance costs
