

Model 2 Utility

PREMIUM IS THE STANDARD

TECHNOLOGY TO POWER YOUR COURSE

Crafted with the Client in mind, the FTR Golf Utility Car ushers in a new era of technology and style that captures everyone's attention.

As you settle into the seat, grasp the premium leather steering wheel, and accelerate, you'll be immediately engaged.

FTR Golf Cars are more energy-efficient than traditional carts, allowing you to extend your driving time between charges with a sophisticated LiFePO4 Battery Pack.

FTR Cars can be plugged into any 110 outlet, reducing your charging time by one-third compared to standard lead-acid batteries.

Maintenance is minimal, allowing you more time to focus on your business.

We aim to streamline your experience, save you time, and lessen your carbon footprint all at once.

Customizable Function

Customization of options to add Winch, Hitches, Actuation, storage and shelving all available to suit your needs

Battery Range

The Model 2 Utility Car comes equipped standard with a 165AH LiFePO4 Battery Pack for extended range of operation

Functional Storage

Fixed aluminum box, is lightweight, durable, and functional for all Utility purposes and applications
