

PRO-STANCE EV

WE STAND BEHIND ITS ELECTRIC POWER. YOU WILL TOO.

Our powerful EV platform is quietly cutting into the commercial mower market. Its power comes from the FusionCore battery system that can keep your crew cutting all day and longer. Don't just sit there, step up to the future of mowing and stand up for green, eco-friendly service.

48"

SIDE DISCHARGE MODEL - 998007

4 - 16 KWH Fusion Core Lithium Ion
(Not included)

REAR DISCHARGE MODEL - 998010

4 - 16 KWH Fusion Core Lithium Ion
(Not included)

52"

SIDE DISCHARGE MODEL - 998008

4 - 16 KWH Fusion Core Lithium Ion
(Not Included)

REAR DISCHARGE MODEL - 998011

4 - 16 KWH Fusion Core Lithium Ion
(Not included)

60"

SIDE DISCHARGE MODEL - 998009

4 - 16 KWH Fusion Core Lithium Ion
(Not included)

REAR DISCHARGE MODEL - 998012

4 - 16 KWH Fusion Core Lithium Ion
(Not included)

QUICK BATTERY SWAP SYSTEMS Gravelly EV mowers operate on a quick-swap battery system that allows you to run your mowers all day. No need to stop when the battery runs out. Just simply swap a new battery in and keep on mowing! (Battery not included with purchase).

QUIET OPERATION Gas-powered lawn mowers are loud, especially in urban areas where the sound bounces off the structures. Electric mowers do not have the loud noises, or the vibrations mowers typically need to deal with when using gas. Lower noise pollution is a great.

FULL DAY OPERATION All electric mowers have run-time restrictions. Just like gas-powered mowers, when the power runs out, you will need to pause before continuing to mow. In gas-powered mowers this means stopping to add gas. With electric this means changing the battery. Gravelly EV is the only commercial mower that includes a quick-swap battery system which allows you to run the mower all day long. Eco- Mode will optimize power distribution to spindle motors and optimization (reduction) of blade tip speed to gain runtime. added benefit for the landscaper and for those around them.
