

CAR HAULERS

THE ATC EXPERIENCE

WORLD CLASS TRAILERS

We've spent years developing and fine-tuning the details and features of our vehicle transports. Whatever your driving stripe, ATC can provide you with quality craftsmanship, industry-leading customer service, and fit & finish that is second to none.

From our economical, feature-rich Raven Car Hauler to our completely customizable Quest bumper pull and gooseneck packages, our full lineup of products are created to meet the needs of every car hauling customer.

If our packages aren't exactly what you're looking for, we can work with you to design your very own, one-of-a-kind custom trailer. At ATC we believe that your car hauler should be no less attractive and functional than the car you're hauling.

EXCELLENCE IN ENGINEERING®

WHY AN ATC CAR HAULER IS THE BEST IN THE INDUSTRY

STRENGTH

Our aluminum is pound for pound twice as strong as the trailer industry standard steel

Tensile Strength: Aluminum = 110 ksi/lb vs. Steel = 58 ksi/lb

EFFICIENCY

Aluminum is lighter than steel which means a better tow

Less wear on the transmission, better fuel efficiency, smaller tow vehicle needed

QUALITY

BuildPro® modular fixed weld tables allow for industry-leading framing precision

Square front and integrated frame construction with advanced welding means ATC makes the most structurally sound and high quality frame in the industry.

RESEARCH

R&D life cycle testing and finite element testing means we can stand behind our quality

Our warranty isn't just industry leading: it's backed by the most extensive testing on the market.

CONTINUOUS IMPROVEMENT

LMS manufacturing means we continuously improve our already advanced quality

Our LMS process involves daily problem solving, continually building better every day.

(Pictured with optional premium escape door)

RAVEN CAR HAULER

FRAME

Torsion or Spring Axles
6.5' Interior Height
16" O/C Floor Crossmembers
24" O/C Roof Crossmembers
24" O/C Wall Crossmembers
Beavertail
Fenderettes

EXTERIOR

Brushed Aluminum Cast Corners
Stainless Steel Verticals & Top Radius
Screwless Exterior
Rear Ramp Door - 4000#
Rear Transition Flap
ATP Stone Guard
Aluminum Bar Locks

INTERIOR

3/4" Stable Deck Plus
3/8" Plywood Walls
(4) Recessed 5000# D-Rings

ELECTRICAL

(1) 12V Led Dome Light w/ Integrated Switch
LED Brake Lights
LED Clearance Lights

RAVEN CAR HAULER PLUS

Upgrades over the Raven Car Hauler

FRAME

Torsion Axles
7' Interior Height
16" O/C Floor Crossmembers
16" O/C Roof Crossmembers

12V Fuse Panel
Battery 12V Deep Cycle
Manual Power Cut Off Switch
(1) Exterior GFI Protected Recept
(3) Interior GFI Protected Recepts
(3) 12V 14" LED Lights
(1) Switch For 14" LED Lights
Second Set of LED Brake Lights
Brace And Wire For Future A/C

THE QUEST PLATFORM

The Quest Platform is an upgrade over our Raven Platform. It allows for customization and come standard with stronger framing, including 16" O/C floor, wall, and roof crossmembers. Plus, all Quest Car Hauler packages can be built in a gooseneck model. (Excludes Quest X)

DEXTER AXLE

Our Raven Car Hauler, Raven Plus and Quest Car Hauler models come standard with Dexter Torflex Axles, the leader in the trailer industry in axle quality and durability.

The Raven Car Hauler Plus is available in lengths of 24' and 28'. The features listed above in the photo are of the 24' model. The 28' model comes with upgrades including a 48" wide side door, a 36"x36" generator door and an L-base lower cabinet.

RAVEN CAR HAULER

OUR MOST ECONOMICAL ENCLOSED CAR HAULER PACKAGE

Features include plywood walls, Stable Deck Plus flooring, 5000# D-rings and more. It's held together with a fully integrated, welded aluminum frame.

Pictured with optional premium escape door.

RAVEN CAR HAULER PLUS

EVERYTHING YOU NEED IN AN AFFORDABLE ALUMINUM TRAILER

Bridging the gap between the Raven Enclosed Car Hauler and the Quest CH205, the Raven Car Hauler Plus contains features like cabinets, screwless aluminum walls and ceiling and polybead flooring.

Pictured with optional premium escape door.

QUEST CH205

THE ENTRY LEVEL QUEST MODEL

Screwless aluminum walls, cabinetry, robust D-rings and black coin TPO flooring are a few of the many great CH205 features.

Gooseneck Model Pictured

QUEST CH305

OUR NEXT LEVEL QUEST FRAME PACKAGE

Features include a black coin TPO floor, upper and lower cabinetry, screwless aluminum interior and exterior walls and much more. It's held firmly together in a heavy-duty, fully integrated frame of welded steel or aluminum.

All Quest models (excluding Quest X) can be built as a gooseneck.

QUEST CH405

Built on its fully integrated frame of welded steel or aluminum, the Quest CH405 includes features such as an extruded aluminum floor, six inch rear spoiler, upper and lower cabinetry with dresser closets, LED lighting, screwless aluminum interior and exterior walls, in-floor spare tire compartment and much more.

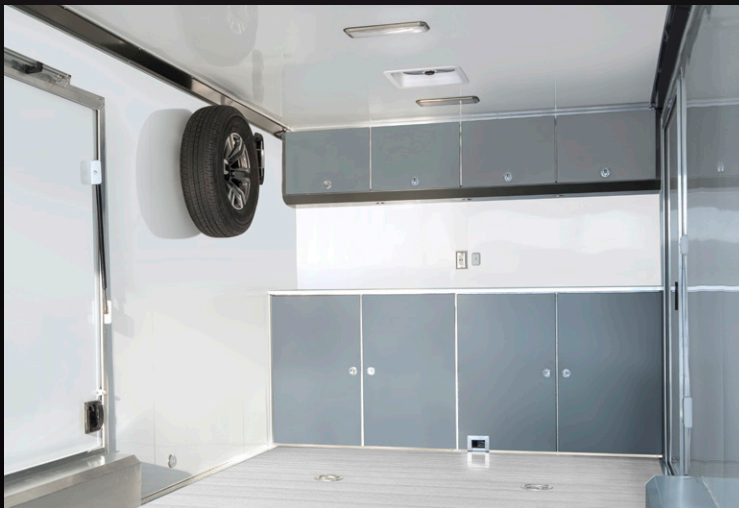

Pictured with optional heavy duty ramp bumpers

QUEST X

THE NEXT GENERATION CAR HAULER

Pictured with optional Premium Escape Door.

INNOVATIVE FRAME TECHNOLOGY

- 7% lighter than comparable model
- Allows for easy tie down placement
- Flooring is integrated as structure
- Navistar tested for durability and strength
- Additional lower cabinet space

REIMAGINED FRONT END AND REDEFINING AESTHETICS

- Easy access to electronic components
- No tailgate damage or restricted movement with hidden jack
- Stainless steel screwless chamfered trim
- Trim free cabinets

NEW FLUSH FIT & TRIM LOCK SEALS

- Lag point extrusion eliminates possibility of seal being crushed
- Two contact point on seal eliminate water's ability to penetrate
- Redesigned wheel box prevents water entry in previously vulnerable seams (PED only)

UPGRADE AN ATC TRAILER FROM A LIST OF OVER **1,000 OPTIONS**

Just a few exciting features are highlighted below.

WORLD CLASS FRAME

A SOLID FOUNDATION BUILT TO LAST

FULL PERIMETER FRAME

Sidewalls integrated directly into the mainframe beams to assure additional strength and capacity.

SUPERIOR TENSILE STRENGTH

Industry standard steel is 58ksi while ATC offers 110ksi; the strongest on the market.

ADVANTECH, ALUMINUM & DARCO FLOORING

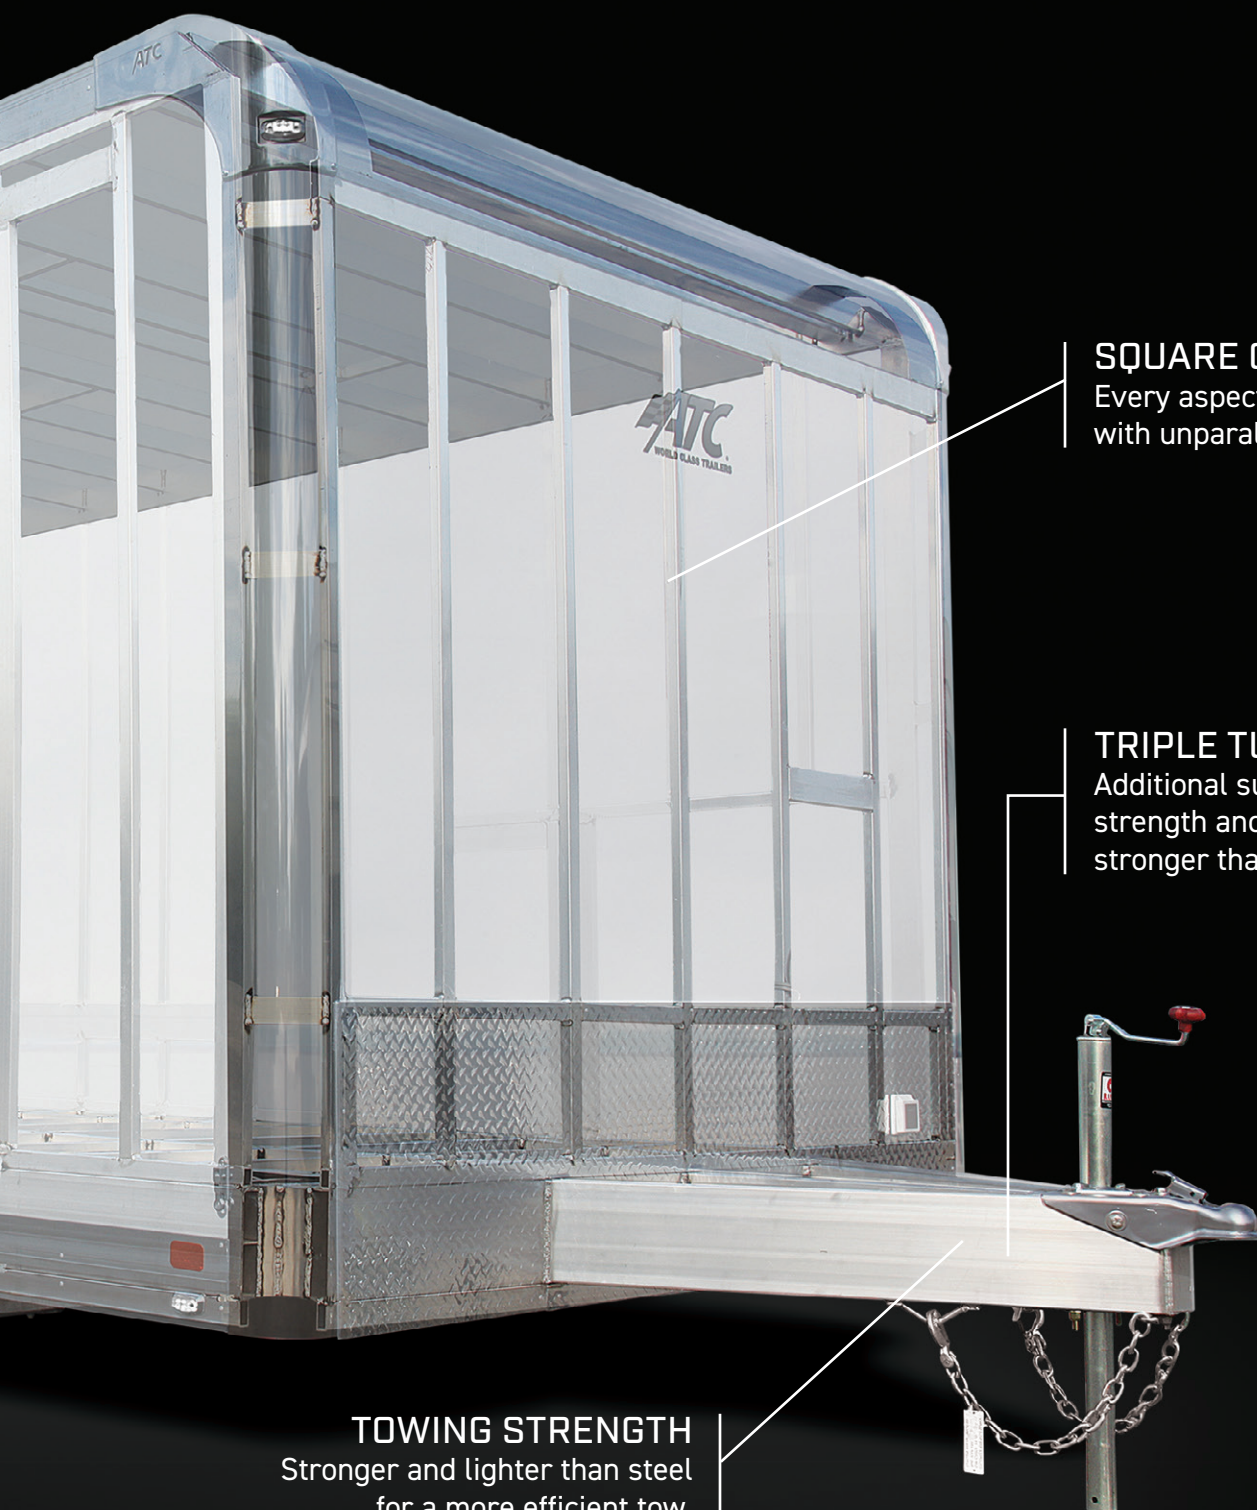

Engineered to prevent moisture for the life of the trailer.

BUILDPRO® MODULAR FIXED WELD TABLES

The highest quality tables and welder certification ensure the most accurate and precise welding in the industry.

STATE OF THE ART 3D CAD

All trailers are built to exact specs by an ATC engineer.

SQUARE ON FRONT BUILD

Every aspect of the frame is built with unparalleled accuracy.

TRIPLE TUBE TONGUE

Additional support for superior strength and extended life. 50% stronger than the competition.

TOWING STRENGTH

Stronger and lighter than steel for a more efficient tow.

FINITE ELEMENT TESTING

Advanced analytical structural analysis proves the value and strength of our frames.

R&D LIFE CYCLE TESTING

10,000+ repetition tests ensure frames that are significantly beyond all industry standards.
