SANIBEL **LIVING. ROOM.**

Prime Time's Sanibel is an oasis of modern design. This is a brand built on craftsmanship and intelligent construction where every surface is made of premium materials to ensure a quality feel and product longevity.

The design is modern and elegant with two tone cabinetry, herringbone flooring, shaker style cabinet doors, and high end materials.

The Sanibel experience is one of luxury, and that is reflected in the floorplan offering. Extra space is utilized to put creative twists on traditional layouts, creating unforgettable experiences and high-end comfort.

CONSTRUCTION

Sanibel is built with Prime Time's ETERNABOND® Construction. Every wall, floor, and slide-out roof is formed from welded aluminum and high density block foam insulation, providing a durable structure and enhanced temperature regulation throughout the coach. High gloss gel coat fiberglass and an automotive painted cap protect the exterior of the coach so it remains resistant to the elements.

In addition to high quality building materials, each and every Sanibel undergoes a CUSTOMER ASSURANCE INSPECTION after it leaves the assembly line. This ensures the coach is functioning properly while providing constant feedback to the production line so innovation and quality remain top priorities.

1. 100" Wide Body
2. Dicor DiFlex Roof Membrane
3. 3/8" Fully Walkable Roof Decking
4. Double Layer Fiberglass Roof Insulation
5. Double Trussed Roof Rafters Throughout

A RENEWED COMMITMENT TO QUALITY.

When it comes to choosing an RV, customers demand quality. At Prime Time Manufacturing, we have renewed our commitment to product quality and customer satisfaction with our new **Customer Assurance Inspection (CAI)** process.

Before any RV can be cleared to leave our site, it must first pass a newly-developed, **rigorous 125-point checklist**. Our skilled technicians review every model from top to bottom, both inside and out. We check and double-check the entire unit, from water tanks to the electrical system, roof to underbelly, kitchen appliances and countertops—and everything in-between.

When you choose a Prime Time Manufacturing product, you can be assured that our enhanced commitment to quality has been developed with you in mind. **Choose quality. Choose Prime Time Manufacturing.**

Download the Prime Time Manufacturing mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Prime Time Manufacturing product. From "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away.

View the online manual at <http://www.primetimerv.com/OnlineManual.aspx> or download our FREE app from the App Store or Google Play!

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.

ADDITIONAL SPECIFICATIONS:

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.
