

Branch Manager® T2001 Attachments

T2001 - BMGXT Bypass Log Grapple

The original mini-grapple by Branch Manager with Hardox wear plate in the body and arms.

Using Hardox wear plate instead of our standard Grade 50 increases the strength by up to three times while also providing superior abrasion resistance.

The swivel mount with “knock around” rotation means less maintenance and less weight, allowing you to lift more. We don’t use locking pins on the rotation and instead prefer to heel the log with log dogs to provide a similar and intuitive function.

BETTER SUPPORT

STRONGER GRIP

TOUGHER BITE

MORE HOLDING POWER

LIGHTER

Reduce weight, maximize lift. Maximize your machine's lift capacity, and tackle tougher jobs with ease.

FASTER

Boost efficiency with proven features that make forwarding and cleanup a breeze for maximum productivity.

EFFICIENT

Work smarter, not harder. Our attachments are designed to save you time & money on the jobsite.

Rope Bollards

Saw Scabbards

Optional Saw Vice

Removable Tree Pusher
